ROBIN

WELCOME WITH CONFIDENCE

Our history and heritage

The team at Robin has been designing and manufacturing elegant and welcoming products since its founding in 2009. From our base near Amsterdam, we specialise in creating sleek, intuitive, and durable doorbells and intercoms. Our products elevate first impressions of a home or business to new levels, with quality and reliability at the heart of everything we do. Since October 2025, Robin has been part of the CDVI Group.

Complete in-house team from design and engineering to software and hardware

Innovation and quality

We are on a mission to deliver the highest quality in design and technology, seamlessly integrating the latest technologies and cutting-edge developments into our products. And we're not only working on today's solutions; our team always has one eye on the future, ensuring that we're always prepared to adapt to the latest innovations in our field. Leveraging deep expertise in telecommunications, our core strength lies in developing intelligent integrations between our hardware and third-party platforms.

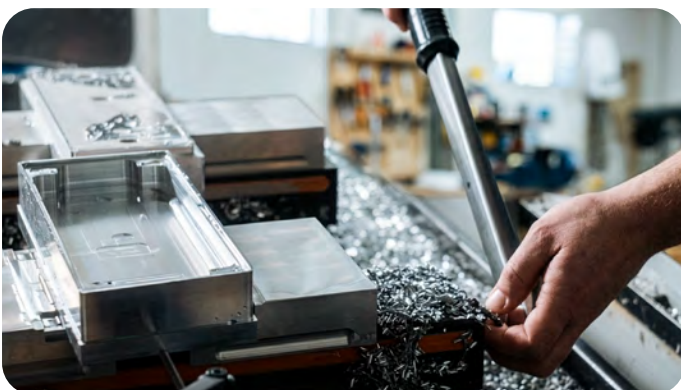

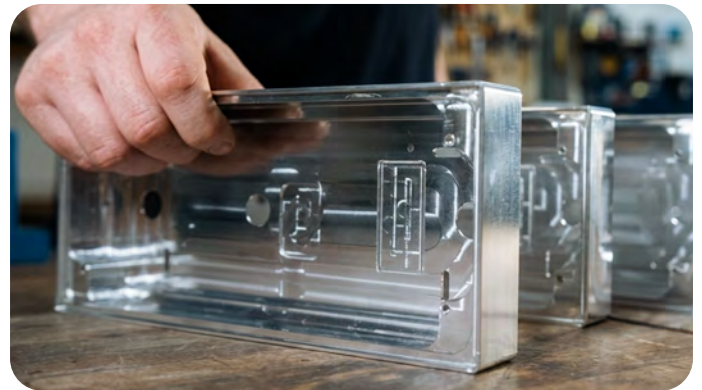

Deep expertise in integrations for crafting seamless building systems

Outstanding support

We believe that outstanding support is the key to customer satisfaction. Our skilled and passionate team is ready and willing to assist with troubleshooting, installation, and inquiries via phone, email, or chat. We believe in the quality of our products. We offer a five-year warranty on all solutions; a testament to their durability and reliability.

Simple and intuitive installation for a smooth setup experience

ROBIN PRO

Professional performance

The Robin Pro combines advanced communication technology with intuitive operation.

It instantly connects visitors to your chosen device for secure and seamless communication.

Designed for professional environments, it features a robust anodised aluminium body with backlit engravable buttons, available in multiple configurations.

ROBIN PRO Classic

Timeless design

All the performance of the Robin Pro, in a premium aged brass finish.

Crafted for buildings with character, this version blends advanced technology with a refined, traditional aesthetic, making it ideal for heritage and prestigious environments, including historical buildings and projects in protected urban districts.

- Full HD 1080p video (13 MP IP camera – H264 / RTSP)
- Up to three simultaneous video streams
- Backlit engravable push buttons
- Integrated relay for remote access control
- Power over Ethernet (PoE)
- Surface or flush mounting

Product Name	Description	SKU Number
Robin Audio Pro 1	1 push button audio intercom	F0413000002
Robin Audio Pro 2	2 push buttons audio intercom	F0413000003
Robin Audio Pro 4	4 push buttons audio intercom	F0413000004
Robin Video Pro 1	1 push button video intercom	F0414000005
Robin Video Pro 2	2 push buttons video intercom	F0414000006
Robin Video Pro 4	4 push buttons video intercom	F0414000007
Robin Video Pro Keypad	Keypad video intercom	F0414000008
Video Pro Classic 1	1 push button video intercom with brass finish	F0414000009
Video Pro Classic 2	2 push buttons video intercom with brass finish	F0414000010
Video Pro Classic 4	4 push buttons video intercom with brass finish	F0414000011
Video Pro Classic Keypad	Keypad video intercom with brass finish	F0414000012
Robin Pro FB	In-wall mounting kit	F0408000021
Robin Pro SB	Surface mounting kit	F0408000020

ROBIN Touch

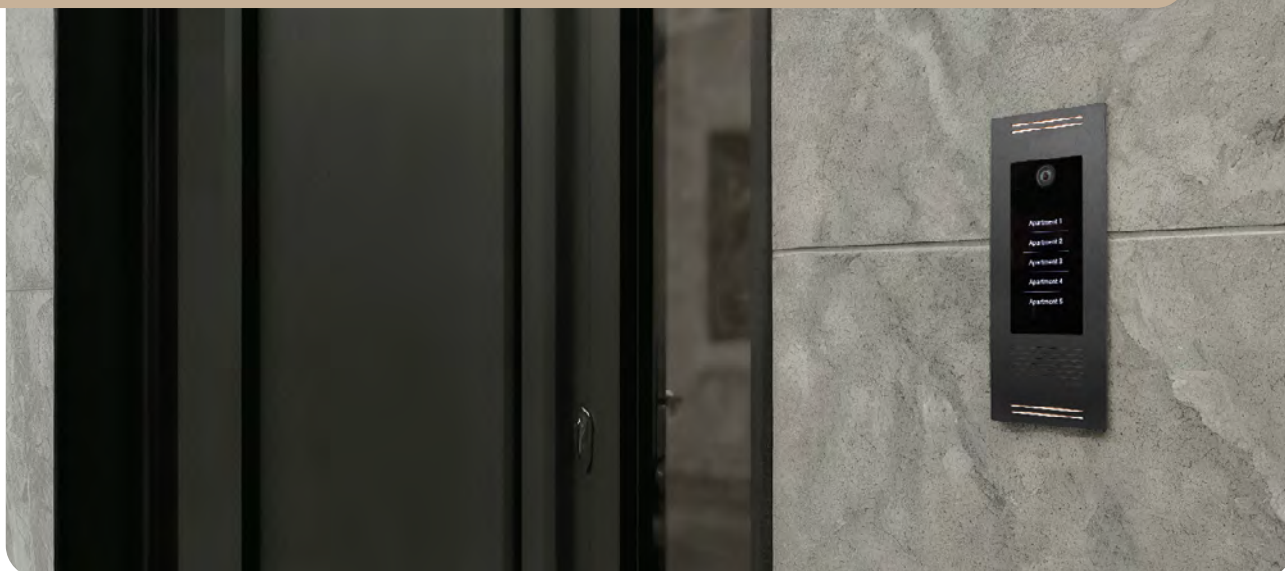

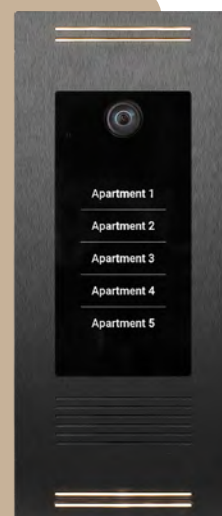

Unlimited flexibility

The Robin Touch redefines access communication with maximum flexibility.

With an unlimited number of call buttons, it adapts perfectly to multi-tenant buildings and complex environments. Its integrated ambient lighting enhances visibility while adding a modern, elegant touch.

Built on the same proven technology as the Robin Pro, it ensures high performance, reliability, and seamless integration.

- Unlimited call buttons
- Integrated ambient lighting
- Full HD 1080p video (13 MP IP camera – H264 / RTSP)
- Up to three simultaneous video streams
- Two-way video communication
- Power over Ethernet (PoE)
- Anodised aluminium design

Product Name	Description	SKU Number
Robin Touch	Touchscreen video intercom	F0414000013
Robin Touch FB	In-wall mounting kit	F0408000026
Robin Touch SB	Surface mounting kit	F0408000025

ROBIN Compact

Reliable simplicity

The Robin Compact retains its recognisable design while integrating the latest technological advancements.

Fully upgraded on the inside, it delivers improved reliability, security, and user experience. A simple press connects instantly to your configured device for seamless communication.

- Secure SIP protocol for easy PBX integration
- Crystal-clear HD audio (OPUS & G.722 codecs)
- 1080p HD video
- Reliable performance for communication and security
- Ideal for residential and business environments

Product Name	Description	SKU Number
Video Compact	Push button video intercom	F041400001
Audio Compact	Push button audio intercom	F041300001
Compact SB	Surface mounting kit	F0408000019
Compact FB	In-wall mounting kit	F0408000018

PROLINE

Illuminated performance

Proline combines refined design with integrated ambient lighting, creating a premium, visually striking entrance solution.

Its lighting enhances visibility and adds an elegant, modern touch to any doorway, while maintaining proven Robin reliability and performance.

- Integrated ambient lighting with fade-in and fade-out effect
- Full HD 1080p video with vivid colours
- Excellent low-light performance
- Up to three simultaneous video streams
- Integrated relay for remote access control
- Backlit engravable push button
- Anodised aluminium housing (surface or flush mounting)

Accessories

Robin IP-Quad WebRelay

Adds four independent relays to control multiple doors or gates from your Robin intercom system.

Easy integration with building management systems and remote control via web interface.

SKU: **F0410000172**

Robin PoE Injector

Provides power and network connectivity through a single Ethernet cable.

Ideal when PoE is not available, ensuring a simple and reliable installation.

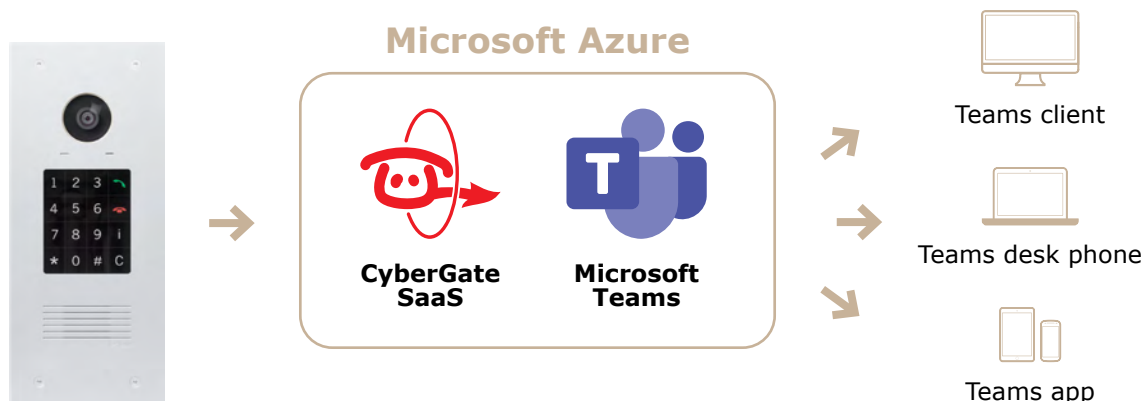

SKU: **F0406000002**

Compatibility

Robin SIP intercoms integrate seamlessly into any environment, whether for communication, security camera monitoring, MQTT integration, or other applications. Built on the secure SIP protocol and enhanced with SSL encryption, the system offers a high level of security on any SIP server or P2P connection. With support for both on-premise and cloud-based SIP providers, the platform enables flexible deployment across a wide range of network architectures.

With CyberGate, the intercom can be connected directly to Microsoft Teams, enabling audio and video communication and remote door access without additional hardware. The solution is available via Microsoft AppSource and Azure Marketplace.

For advanced functionality, the built-in event manager enables real-time, event-driven communication with both internal and external systems. Events such as calls, button presses, and relay activations are transmitted securely, allowing seamless integration with access control systems and other applications. Combined with the integrated API, this delivers a flexible and comprehensive experience for every user.
